

# Transferring Your HSA

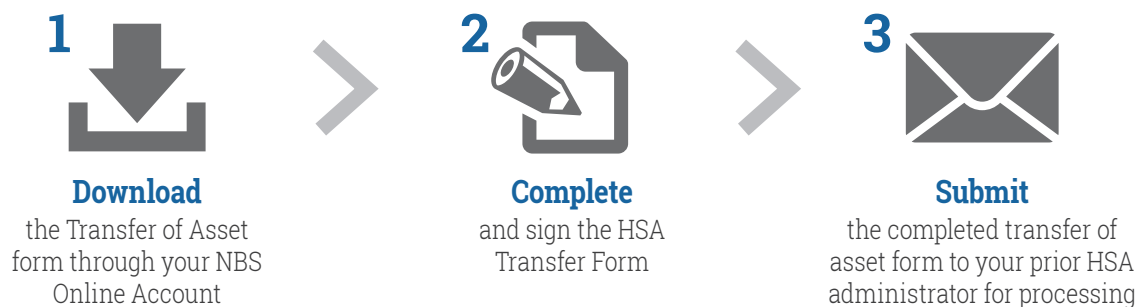

Consolidating your accounts made easy.

## Why Transfer My HSA?

If you have more than one Health Savings Account (HSA), consolidating your funds to National Benefit Services is a good option to help make account management easier. Here's why:

- **A single experience.** With your funds in one National Benefit Services HSA, you will have one login, one statement, one mobile app, one support team, and one debit card.
- **Save money by reducing fees.** By consolidating funds and closing your other account(s), you can eliminate any administration fees from your prior custodian.
- **Make tax-time easier.** By having one HSA, you will only have one set of tax forms to manage during tax-time.

## How to Transfer My HSA?

## What's Next?

National Benefit Services will take care of the rest. We will work with your previous custodian to transfer your balance to your National Benefit Services HSA (less any closing fees applied by your previous custodian). The transferred funds will appear in your National Benefit Services account within four to six weeks.\*
